on
**ENGENDERING AGRICULTURE WITH
TECHNOLOGICAL INNOVATIONS AND
POLICIES FOR WOMEN EMPOWERMENT**
11th – 31st January 2025
at
ICAR - Central Institute for Women in Agriculture
Bhubaneswar

Source - Internet

Introduction

Women play a significant role in agricultural growth but still facing many issues. To achieve SDG-5 i.e. Gender Equality, gender equity is one of the top priority in all sectors. ICAR-CIWA is exclusively working to address the issues, affecting women in agriculture and exploring opportunities to enhance productivity and sustainability of agriculture. The institute and other Agricultural organizations developed a significant number of women friendly technologies/methodologies for promoting gender equality and productivity in agriculture. There is need to disseminate information on technological innovations and new programmes/policies to researchers to engender agricultural research and extension for sustainability and profitability of agriculture.

About ICAR-CIWA

ICAR-Central Institute for Women in Agriculture (ICAR-CIWA), located in Bhubaneswar, India, established in 1996 under Indian Council of Agricultural Research (ICAR), Ministry of Agriculture & Farmers Welfare, and Government of India. The institute generates and disseminates knowledge to promote gender-sensitive decision-making to enhance the efficiency and effectiveness of women farmers. The All India Coordinated Research Project (AICRP) on Women in Agriculture with 13 centres in 12 states of the country is being coordinated by ICAR-CIWA. This AICRP addresses the region-specific issues related to women in agriculture with a specific focus on

The Winter School will focus on

- Gender issues in agriculture
- Gender disaggregated data
- Drudgery and ergonomics
- Occupational health hazards
- Women-friendly technologies
- Climate resilient agriculture
- Nutri- sensitive agriculture
- Programmes and schemes for women in agriculture
- Gender perspective in agricultural extension,
- Engendering research in different sub-sectors of agriculture and comprehensively empowering women farmers/farm women with technological innovations and policies.

livelihood security, household nutrition, reduction of drudgery and occupational health hazards, and capacity building of agrarian families. A centre of All India Coordinated Research Project on Ergonomics and Safety in Agriculture' is also functioning at ICAR-CIWA with the mandate of application of ergonomic principles and anthropometric data for increasing productivity, reducing drudgery, and minimizing accidents and occupational health problems of workers in agriculture and allied sectors. ICAR-CIWA is dedicated to gender research to mainstream and empower women farmers so as to realize enhanced productivity, profitability and sustainability of agriculture.
